Version 6.3.7! Extra Features. Version 6.3.6 & 6.3.7 No more Positives!!! Version 6.3.7 comes with a MAJOR change in the program. Version 6.3.7 allows you to have unlimited numbers of YP searches in one session! For example, if you have 100 companies in the search, it will generate 100 searches. And if you have 200 companies, it will generate 200 searches. You can actually have as many searches as you like. Version 6.3.7 is a New, Improved and Worked! If you have problems with version 6.3.7, please delete the folder in the same path where you installed this application. Example: C:\Program Files\Yellow Leads Extractor 6.3.7\ After that, you will be able to start up the program again. Uninstall instructions are at the end of the main screen. "System Requirements" will work on Windows 2000/XP/Vista/7, 32 and 64 bit platforms. You can move from one tab to the next by clicking on the arrows found on the right side of the tabs. Want to view a company in the first tab of the application? Simply click on the company name and the company info will display in the current tab. For speed and quality issues, this program has been tested using Internet Explorer, Firefox and Chrome. Yellow Leads Extractor is a complete stand-alone installation of the software. You can start or run the application on your desktop. The program is designed to be added to your "Favorites" list on the start menu. Click on the title "Start" and the main screen should appear. Yellow Leads Extractor 6.3.7 has been tested on Windows XP, Windows Vista, Windows 7, Windows 8, Windows 10. The program allows you to search Google, Yahoo and Bing (up to three) on a single search button, if you need to do so. A batch file is included in the installation folder. Double-click on the file and it will open a text-editor for you to edit the contents. You can run the batch file from the start menu. Yellow Leads Extractor will do its best to extract the data accurately. It will
