The Vgate Scan VS890 is based on the technologies and standard that comply with the requirements of the U.S. Military's Joint Aviation Requirements. With the Vgate Scan VS890, pilots can capture and store information in the form of e-mail, text, G-Code and PDFs. With it, pilots can easily transfer the captured information to other devices, such as a PC, smartphone, tablet, etc. Fujian Benq Technology Co., Ltd., founded in 2006, specializes in the manufacture and sale of a series of high-quality avionic products. The products are shipped to customers throughout the world from China, and have gained strong reputations in the domestic market. The company focus is on supplying customers in the aviation industry with avionic products of the highest quality.
