Avatar HD 1080p is a 3D movie in the action genre, released on July 2, 2009 in theatres and on DVD and Blu-ray. The invention pertains to the field of computer systems. More particularly, the invention pertains to an apparatus and method for calibrating the analog-to-digital converters of an input/output (IO) controller used for communication between a computer system and a peripheral. In general, IO controllers use analog-to-digital converters (ADC) to convert the signals generated by devices (such as hard disk drive read/write heads) coupled to the IO controller into digital signals to be processed by a computer system. A problem arises, however, when there is a difference between the number of bits produced by the ADC and the number of bits produced by the computer system. For example, some computers read and write data in eight bit bytes, while others read and write in eight, sixteen or thirty-two bit words. As a result, if a computer system and
