
Kelis - Kaleidoscope 1999.40

[Download](#)

kelis isnt the first person i think of when thinking about the secret to a long-lasting career, and i'm sure she wont be the last. that said, theres no secret. i was super lucky to have a family that believed in me, and i was super lucky to have a manager who believed in me. i was able to make music for myself. kelis released kaleidoscope on march 6, 1999. the album was recorded in los angeles and new york city and produced by the neptunes, with additional production by jordan "dj swivel" young. the album features guest appearances from kanye west, pharrell williams, and pusha t. kelis debuted the single "caught out there" on mtv2's total request live in january 1999. watch this video on youtube click to load video all about the boom-boom-bippity-boppity.. kelis nails it with her trademark breathy vocal style, but the funky rhythm section and buoyant keys give it more of a soulful vibe, while the lyrics are self-effacing rather than boastful. watch this video on

youtube click to load video like, i know you want it, but im not gonna give you a lick of lick of it.. the neptunes-produced good stuff sounds like a singalong-ready pop confection, but on the flip side of game show, good stuff wears its left-field influence on its sleeve. kelis plays keyboard like its her life mission, and her sultry vocals set the tone for what sounds like a looney tunes musical romp. watch this video on youtube click to load video mars if caught out there was kelis calling her fans out, mars is a punch in the gut. while she still uses her breathy vocals, she blasts out the words with a vengeance, borrowing the style of female rappers on a mission to make men cringe.

Kelis - Kaleidoscope 1999.40

it might be tempting to brush past a relationship that isn't working. it's easy to think of the negatives and assume there aren't any, only to realize you've been neglecting to acknowledge what you have, says kelis. it just takes a little more energy to stay present and to appreciate what you have. you have to be able to find joy in the little things. you have to be willing to work for a marriage, a relationship, happiness. in the 20 years since its release, kaleidoscope has been retooled multiple times. in 2002, for example, several b-sides were included. by the time of its 2002 reissue, the album had been remixed again and included three more a-sides, including a different version of the title track. in 2005, it's been re-released with a slightly altered tracklist and packaging, which featured a cover designed by kelis. the album was released in 1999, the same year that usher won his second grammy for best r&b vocal album. and that year also saw kelis release the title track for her first studio album, kelis. it was an interesting time in pop music, in part because of how the internet changed the way consumers connect with musicians and their music. in the past, artists were forced to use the radio to get their music heard by the public, but, thanks to itunes and the like, an artist could create a connection with fans that went beyond the cult of personality. that made the public's perception of artists like usher and kelis more complex. if someone could connect with an artist through the internet, then they could also connect with another, more intimate aspect of their lives. as kelis said in kelis there's a side of us that we don't let people see. that's not necessarily good or bad, but it gives us the opportunity to be different than the public

wants us to be. 5ec8ef588b
